Day 1

Day 2

WELCOME

Dear Attendees,

Welcome to **Mining & Critical Minerals America Conference and Exhibition!** We are honoured that you can join us here at this premier international event dedicated to critical minerals, mining and commodities here in Houston, Texas, USA.

USA has been seeking secure and sustainable supply of critical minerals for its industries and lower dependency on imports from single country suppliers. In July, President Trump unveiled the One Big Beautiful Bill Act (OBBA), which allocates \$7.5 billion for critical minerals—\$2 billion to expand the national stockpile by 2027, \$5 billion for supply chain investments, and \$500 million for a Pentagon credit program to spur private projects.

This month, the landmark \$8.5 billion deal signed between the USA and Australia by President Trump and Australian Prime Minister Anthony Albanese is another example of USA boosting its supply of critical minerals. Under this deal, \$1 billion will be invested by both countries in projects in USA and Australia over the next six months.

Here in Texas, a new generation of industries has also emerged amidst the Federal Government's push for mining revival. Lithium and rare earths mining, processing and refining are some of several mineral industries emerging in Texas and could help define the future economic development of this oil rich State.

At Mining & Critical Minerals America Conference, we seek to share knowledge, facilitate important conversations and help regional and global mining and energy industry stakeholders stay abreast of the latest trends and developments. We hope you can build on this diversity of attendees from North America and beyond to make excellent connections and forge new business opportunities.

This event in Houston is part of our global Energy Transition, Critical Minerals and Mining Investment Conference Series. To date, this Conference Series have been held in Singapore, Japan, India, Australia, UK, United Arab Emirates, Canada and USA. We also organise MiningTech Conferences in Vancouver, Canada and Sao Paulo, Brazil. Globally, our events cover Africa, Australia, Asia, Latin and North America and Europe. To find out more, you can speak to us or browse at our website www.spire-events.com.

In closing, we hope you will have a great Mining & Critical Minerals America Conference experience ahead.

Yours sincerely,
Daniel Radziszewski

EXHIBITORS

Eastman Minerals is a US-headquartered global mining and commodities company, operating as a sister company to the established Deeqa Group. Backed by Deeqa's legacy, Eastman manages the full minerals value chain - from exploration and mining to refining and trading. The company focuses on responsibly developing its 9,650+ sq km concession in Somalia, which holds deposits of precious metals, critical minerals, and high-value gemstones.
